

Advanced Estate Administration

August 13, 2012

New Jersey Institute for Continuing Legal Education Summer CLEfest

Estate administration can be a complex task, especially if there has not been careful planning. The more you know about estate tax and the basic principles of valuation, the more effectively you can represent the best interests of your client.

This intermediate-level seminar will give you the information you need to address some of the more complex issues you may confront when administering all types of estates, from pre-probate procedures through distribution of the assets. It will also give you the confidence you need to enhance your performance in this area and provide the best outcome for the clients you represent.
