

All Things Natural Gas

The Shale Gas News Radio Show

July 14, 2018

The Shale Gas News, heard every Saturday at 10 AM on 94.3 FM, 1510 AM and Sundays on YesFM, talked about the Nord Stream 2, electric blackouts, oil and gas wages and much more last week.

The Shale Gas News has grown again; welcome Gem 104 as our FOURTH station! Gem 104 helps to solidify the Shale Gas News coverage in an important Marcellus region, PA's northern tier. The Shale Gas News is now broadcasting in Bradford, Lackawanna, Lancaster, Lebanon, Luzerne, Lycoming, Pike, Sullivan, Susquehanna, Tioga and Wayne Counties, as well as in greater central PA. The Shale Gas News is aired on Saturday or Sunday depending on the station.

Every Saturday Rusty Fender and I host a morning radio show to discuss all things natural gas. This week, as a guest, we had attorney Daniel B. Markind.
