When AI Becomes a Legal Liability: Emerging Risks to Trade Secrets, Privilege, and Confidentiality

September 22, 2026

Mariel Giletto, Anthony Gruzdis, Zoe Matherne

As businesses increasingly incorporate generative AI into everyday operations, courts are beginning to confront novel legal questions involving confidentiality, privilege, trade secrets, and contractual obligations. In this article published by the *New Jersey Law Journal*, Flaster Greenberg attorneys Mariel Giletto, Anthony Gruzdis, and Zoe Matherne discuss recent court decisions and the evolving legal framework that businesses should consider when developing and implementing AI strategies.
