A Webinar for Airport Sponsors, Operators, Executives & Consultants

For the past nine months, COVID-19 has made a significant impact on the airline industry. If you are the sponsor or operator of an airport facility or consult for a sponsor or operator, don't miss your chance to hear from Flaster Greenberg's experienced national insurance and aviation law practice group members on how to approach issues caused by COVID-19 and the emerging environmental situation, including whether or not current insurance policies cover airport sponsors and executives for issues relating to COVID-19.

During this hour and a half webinar, we will address:

- Update on insurance and what airports, airport sponsors and executives need to be aware of, including important tips on how to expand coverage
- How airports should tailor their operative documents to handle insurance issues
- Examples of where insurance can become troublesome
- Update on the FAA's attempt to find a substitute for PFAS
- New suits many airports are participating as plaintiff's relating to PFAS
- Live Q&A
