
Trends Affecting Costs in Patent Litigation

April 21, 2021

Association of Corporate Counsel - Greater Philadelphia Chapter - In-House Counsel Conference

Companies are continuing to face increased litigations from non-practicing entities (NPE's) and the funding for these entities can be substantial. Some of the factors that companies are having to consider in dealing with well-funded NPE's are the new rocket docket in the Western District of Texas, funded litigation in the fast-paced international trade commission, the Patent Office's restrictions on filing multiple *inter partes* review petitions, and the ability to bring a motion to dismiss for failing to claim patentable subject matter. The panel will discuss strategies for effectively combatting NPE's in today's environment.

Speakers:

1. **Michael Bonella**, Flaster Greenberg PC, Shareholder, Head of Patent Litigation
2. **David Marcus**, Comcast, SVP, Chief Litigation Counsel
3. **Deanna Kwong**, Hewlett Packard Enterprise, Senior IP Litigation Counsel

Date & Time:

April 21, 2021

11:00 am - 12:00 pm
