
Navigating Energy Transitions, Investment Opportunities and Tax Incentives Under the New Administration (Cherry Hill)

March 26, 2025

BUSINESS LAW SEMINAR SERIES

NAVIGATING ENERGY TRANSITIONS, INVESTMENT OPPORTUNITIES AND TAX INCENTIVES UNDER THE NEW ADMINISTRATION

Join Flaster Greenberg PC for a monthly Business Law Seminar Series.

The educational sessions will focus on topics that have an impact on most businesses in New Jersey and Pennsylvania, including updates on recent and pending legislative and administrative actions.

Our one-hour programs are geared toward business owners and business executives, and the professionals who advise them: accountants, financial advisors, bankers, and investors. Attendees will also have the opportunity to network with other business owners and professionals, and earn CLEs and CPEs.

SEMINAR DESCRIPTION

Join us for an informative seminar that explores developments, investment opportunities and tax consequences for real estate and energy transitions in South Jersey and Pennsylvania. This session is designed for businesses, accountants, financial advisors, banks, professionals, and even municipalities looking to stay informed in today's energy landscape.

Topics will include:

- Current overview of the energy situation in the nation and the region
- Current and upcoming energy regulations and what they mean for your organization.
- Financing and funding renewable energy projects in NJ and PA, and ensuring energy needs continue to be met efficiently.
- Tax credit programs and how the 2022 tax incentives of the Inflation Reduction Act (IRA) can help municipalities and businesses that are interested in "going green."
- Insights on the IRA and Infrastructure Improvement Act and how these laws impact energy projects as well as how to qualify for prevailing wage incentives.
- Understanding South Jersey and Pennsylvania's gas and oil supply stability to safeguard your operations.
- Investment opportunities from solar and wind farms to traditional energy supplies.
- Considerations for businesses and municipalities interested in going green and how to avoid potential power failures that could disrupt operations.

Continued

- Loan underwriting and energy consumption considerations for financial institutions.
