

AI Building Blocks & Key Takeaways for Transportation & Logistics In-House Counsel

August 6, 2025

Transportation Lawyers Association Corporate Counsel Committee

Description:

During this presentation, attendees will learn about the basics of AI and the business and legal considerations that will help build a solid legal foundation to AI usage within their businesses. Attendees will explore what AI it is and isn't and the standard provisions that businesses should pay attention to. Finally, attendees will dive deeper into the legal risks related to the transportation industry through a look at case law highlights, and the steps in-house counsel should anticipate with AI in this rapidly evolving landscape.

Presented by:
