
How Tariffs Impact Consumers, Businesses, and Working Families

January 15, 2026

Facebook Live with State Senator Art Haywood

Facebook Live Event

Thursday, January 15 | 1:00:30 PM

Join Pennsylvania State Senator **Art Haywood** and Flaster Greenberg shareholders and Transportation, Logistics & Supplies Practice Group Leads **Chris Merrick** and **Eric Palombo** for an informative conversation on how tariffs impact consumers, businesses, and working families. Designed to give Pennsylvanians a clearer understanding of how tariff policy affects their daily lives and the states economy, Chris and Eric will help explain how tariffs work and how they translate into higher or lower costs for everyday people.

Key issues that will be discussed include:

- Who actually pays when tariffs are imposed
- How tariffs affect the price of food, clothing, and household goods
- The impact on seniors, fixed-income households, and working families
- What tariffs mean for Pennsylvania businesses and local jobs
- Whether there are alternatives that protect workers without driving up prices
