

Regional Spotlight: Information Technology Developments

April 27, 2012

Greater Philadelphia Chamber of Commerce

Information technology innovations in Greater Philadelphia are enabling our region's leading industries to enhance their capabilities and improve operations. Join us on April 27th as a panel of experts explore how these new developments are moving information technology forward and providing cutting edge solutions in healthcare, sustainability, and other leading fields.

This program is part of a four-part series that highlights Greater Philadelphia's leading economic drivers and explores how they are creating opportunities for regional collaboration and growth now and in the future.

The program will be held in SAP's new LEED-certified office, which is currently the largest LEED Platinum-certified facility in Pennsylvania.

Panelists:

Christopher Clark, Chief Operating Officer, MaaS360 by Fiberlink

Donald Reed, Chief Innovation Officer, Crozer-Keystone Health System

Representative, SAP America

Representative, Widener University

Location:

SAP America
3999 West Chester Pike
Newtown Square, PA 19073
