

Flaster Greenberg Continues the Ongoing Fight Against Breast Cancer

Press Release

October 29, 2021

Cherry Hill, NJ

Breast cancer diagnoses have been on the rise, with breast cancer alone accounting for 30% of newly diagnosed invasive cancers in women. To help spread awareness, Flaster Greenberg has teamed up with Living Beyond Breast Cancer and exceeded our donation goal by 328%, bringing us to a total of \$1,070 towards the fight against breast cancer. The month of October may be drawing to a close, but for those fighting breast cancer, it continues to be an ongoing battle. For more information on Living Beyond Breast Cancer and their efforts to relentlessly search for answers, or to make a donation, [click here](#).
