FLASTER GREENBERG
Attorneys at Law | A Professional Corporation

The FG Difference

The Entrepreneurial Attorney

At Flaster Greenberg, Every Client Matters and it is that practice-focused approach to law that sets us apart. Not every attorney is a Flaster Greenberg attorney because our culture, our clients and our team value take charge lawyers who are truly committed to owning their practices, managing their workload and building client relationships that last decades. Our shareholders are forward-thinking entrepreneurs who reap the rewards of ownership while offering outstanding client service and skilled legal counsel.

This entrepreneurial mindset allows our attorneys to build new practice areas while closely managing the economics of growth. It also means that our attorneys are able to respond to market trends and client demand rapidly and often with great success as they collaborate across practice area, office and industry. The lawyers who join Flaster Greenberg appreciate our straightforward compensation model, transparent management data and skilled administrative support in an atmosphere that allows them to maximize their client growth.

In addition to encouraging practice growth and client relationships, Flaster Greenberg has a strong tradition of providing professional development opportunities for both shareholders and associates so that they continually learn the latest developments in law and client service. Furthermore, we are deeply committed to diversity, equity and inclusion, as well as the advancement of our women attorneys. We encourage you to learn more about these initiatives by visiting our DEI and Women's Initiative pages.

If you have the desire to become a true legal entrepreneur and take charge of your future, please contact Karen Roberts, Chief People Officer, by emailing recruiting@flastergreenberg.com.
